I have reviewed the Njdl reports and there were two violations in 2015

One was for lack of 24 hour operator coverage and the second one was for lack of chief engineer with a gold seal

Njdl said violations were abated a month later. But as of today they do still do not have a gold seal chief engineer. Mark is only a red seal. He shouldn't be able to operate the system without a gold seaL

I have attached a picture of the Refrig certs posted in marks office which indicates his red seal

Njdl should never have abated the violation
